A moment with Richard Grubb & Associates

Address: 30 N. Main Street, Cranbury, NJ 08512 (We also have addresses in PA, MD and IL)

Contact name: Richard Grubb

Phone #: 609-915-8197 cell, 609-655-0692, office

E-mail: rgrubb@richardgrubb.com

Years in business: 20

Years in the BLSJ: Seven years

What products/services does your company provide: Historical and Archaeological Surveys

Has your company recently won any awards: 2007, New Jersey Historic Preservation Award from the DEP for work on the Rehabilitation of Somerset County Bridge No. E0801 in Raritan Borough and Hillsborough Township, Somerset County, New Jersey.

Have you performed any community service or charitable efforts within the last year: Our company regularly attends fundraisers for worthy causes. We donate monies to worldwide "help" organizations. We have open houses where we show the local community what we do.

What do you see are the most important issues in the building industry today: We are not builders or developers and my firm does not entirely depend on the health of the building industry for its work; therefore, it's a difficult question to answer. Obviously the economy is having a major negative effect on the building industry at present. From my perspective I think if builders/developers performed due diligence for potential historical and archaeological issues before permits are applied for it would enable firm's like mine to work more closely with the builder/developer community from the outset to ensure that requests from government agencies (i.e. DEP) for historical and archaeological surveys don't come as a complete surprise.
